

# Rami Shoula

Machine Operator

## Profile

A dependable and attentive Machine Operator with 19 years of experience in industrial manufacturing environments. Well versed and knowledgeable in industry compliant safety standards. Certified in class-L machine maintenance and repairs. Managed and operated a variety of machines including moving equipment, direct feeds, radial drill presses, power presses and variable speed belt machines. Possessing a strong work ethic and commitment to efficiency and process. A team player with an upbeat attitude and a willingness to stay until the work is done.

## Employment History

### Machine Operator at Catskills Products Inc., Bohemia

July 2014 — September 2019

- Utilized a radial drilling machine as part of a 23 part production process on an automotive part manufacturing plant.
- Completed an average of 105 components per hour and identified an efficiency that led to a 23% production increase.
- Maintained specialty tools and repairs for a fleet of 13 milling machines under my direct supervision, including cleaning and part ordering.
- Received class-L machinery safety certification.
- Adept at machine set up and quality testing.

### Machine Operator at Aztec Manufacturing Corp., Wichita

April 2006 — December 2013

- Fed a direct feed machine in a manner consistent with a fast paced production schedule.
- A perfect attendance record.
- Created templates to use and fit molds into to produce less waste in the workplace.
- Logged over 5,000 hours on both a drill and power press performing repeated actions in a consistent and reliable manner.
- Certified in drill and power press safety standards and operations.
- Maintained a clean work environment free of debris.

### Fork Lift Operator at Eagle Press Publishing, Weston

March 2000 — July 2005

- Responsible for organizing and transporting all pallets of printed product onto delivery trucks in an orderly and timely manner.
- Implemented safety regulation standards to ensure a safe workplace.
- Identified issues and performed maintenance and regular repairs to machines as needed.
- Took receipt of and stored production materials in appropriate areas.
